

# Jan-Philipp Fränken

janphilipp.franken@gmail.com

janphilippfranken.github.io

Proficient: Python, R, NetLogo, JavaScript, HTML  
Learning: C++

## Education

### University of Edinburgh, PhD in Psychology.

*Bramley Computational Cognitive Science Lab*

September 2019-December 2022 (expected)

### University College London, MSc in Cognitive and Decision Sciences.

GPA: 77.8/100, Distinction, Dean's List

- o Courses in programming (Python) and statistics (R).

September 2018-August 2019

### Maastricht University, BSc in Psychology.

GPA: 8.98/10, Distinction, Honours

- o Exchange at Universitas Surabaya, Indonesia.

September 2015-July 2018

## Experience

### PhD Researcher, University of Edinburgh.

September 2019-Present

- o Used **Python** and **C++** to build new algorithms of concept learning resulting in first-author submission (preprint [here](#)).
- o Developed interactive multiplayer experiments using **React** and recruited participants using **MTurk** (demos [here](#)).
- o Published first-author conference paper (paper [here](#)) and first-author poster at Cognitive Science Society (poster [here](#)).
- o Developed novel account of structure sensitive social inference leveraging dynamic Bayesian networks (paper in prep.).
- o Organised weekly lab meetings and presented research findings in talks at NYU, UC Berkeley, and UCL.

### Tutor in Computer Science & Statistics, University of Edinburgh.

September 2019-Present

- o Led weekly tutorials helping computer science students with the implementation of causal models in **R** and **RStan**.
- o Tutored five courses in statistics using R and awarded £100 for excellent tutoring performance in 2020/2021.

### Researcher, City, University of London.

March 2019-December 2020

- o Implemented dynamic causal model of resting-state fMRI using **MATLAB** and Python (paper in prep.).

### MSc Researcher, University College London.

September 2018-August 2019

- o Built an **agent-based model** of echo chamber formation in **NetLogo** resulting in first-author publication (paper [here](#)).
- o Developed experimental paradigm and collected data by running interactive experiment on MTurk using **JavaScript**.

### Consulting Intern, CPC AG - Consultancy for Change Management.

July 2018-September 2018

- o Conducted market research and conceptualised mindfulness training for a major telecommunications provider.
- o Completed course on agile project management from Scrum.org and received **PSM I** certificate.

### BSc Researcher, PositivePsychology.com.

September 2017-August 2018

- o Collaborated with my BSc supervisor Hugo Alberts and developed a mindfulness training tool.
- o Tested tool with 80 subjects and found significant impact on subjects' life-satisfaction ratings compared to control.

### Research Assistant, Maastricht University.

March 2016-June 2018

- o Collected empirical data using a virtual reality-based deception paradigm and analysed results.
- o Presented findings to the university's forensic psychology section and co-authored publication (paper [here](#)).

## Selected Leadership and Awards

### PhD Scholarship, German Academic Scholarship Foundation.

December 2019-Present

- o Awarded competitive scholarship by Germany's most prestigious scholarship foundation (€68,800).

### Political Cognition Seminar Series Organiser, University College London.

February 2019-August 2019

- o Organised a biweekly seminar series with speakers from Yale, Cambridge, Oxford, LSE, and other top universities.

### Lead Course Representative, University College London.

September 2018-August 2019

- o Designed survey to collect data from 70 postgraduate students and presented results to faculty in quarterly meetings.
- o Collaborated with course convenor and developed new assessment format for the module Knowledge, Learning and Inference.

## Skills and Interests

- o **Machine learning and statistics:** Bayesian models, Monte Carlo methods, causal inference, reinforcement learning, program induction, information theory, regression, clustering, classification, hypothesis testing, model fitting, optimisation.
- o **Research skills:** Experimental design, model development, data collection, data analysis, data visualisation, report writing.
- o **Languages:** Native/bilingual proficiency: German, English. Beginner: Bahasa Indonesia.
- o **Interests:** Kiteboarding, meditation, mixed martial arts, playing guitar.
