Certificate

On behalf of Maastricht University, the Faculty of Psychology and Neuroscience declares that

Jan-Philipp Fränken

successfully completed the MARBLE project.

The Maastricht University Research Based Learning Program (MaRBLe) is a program for excellence. It offers talented and motivated students the opportunity to advance their research skills within a specific field or discipline while working closely together with academic staff. Within this program students create their own research project and focus on the development of analytical skills which are important for a career in scientific research or research in business and industry.
